

Table of Contents

1	A New Beginning	1
1.1	<i>It Starts With Turing</i>	1
1.2	<i>The Rise of Deep Learning</i>	2
1.3	<i>What do We Expect of Neural Networks?</i>	3
2	Neural Networks as Graphs	6
2.1	<i>The Neural Building Blocks</i>	6
2.2	<i>Layers and Layers and Layers</i>	6
2.3	<i>Convolutional Layers</i>	6
2.4	<i>Where are the Loops?</i>	6
2.5	<i>Structure and Semantics of Networks</i>	6
3	Correctness Properties	9
4	Decidable Theories of First-Order Logic	11
5	Encodings of Neural Networks	12
6	Decision Procedures	13
7	Specialized Decision Procedures	14
8	Just Enough Abstract Interpretation	16
9	Numerical Abstract Domains	17
10	Abstract Execution of Neural Networks	18
11	Abstract Deep Learning	19
12	Neural Networks as Policies	21
13	Verifying RL Policies	22
14	Efficient Policy Verification	23
15	Enforcing Properties in RL	24
